Daryl, do these come with bulbs or do I get to order those independently?

○ = Pendants!  
 On ceiling is standard quad outlet J-box like:

Count  
 Print Shop: 5  
 Sebastian: 4  
 Marty: 2  
 Corridors: 12

TOTAL: 23

Circuit switches in all respective individual spaces as necessary.

Print shop would, thus, be four switches:  
 1-3: fluo grids, 4: pendants

If simpler, let's run all corridor pendants directly off panel?

DARYL, CAN YOU PURCHASE THE J-BOXES, OUTLETS, AND COVERS AT PLATT, PLEASE?
